

Approved Starter Dose Medications

- i. 2 of them are controlled (Vicodin and Ultram)
- ii. Rigorous Ohio Board of Pharmacy Reporting
- iii. No charge for patient
- iv. Must order off “starter list”
- v. You DO NOT have to write a starter dose for bulk items (“Afrin, silvadene, eye drops, ear drops, mag citrate, ointments” albuterol) but you DO have to write an order in for them in the ED order section and write dispensing instructions in d/c papers
- vi. **IT is my recommend we AVOID these all together.**
- vii. YOU can ONLY order starter meds off the below list. Please note two highlighted medications below (Vicodin and Tramadol). These two medications can **only** be provided as starter doses in the amount listed (2 tabs). DO NOT GIVE MORE OR LESS THAN THE AGREED 2 Tabs. This is has to do with the reporting to the state board of pharmacy.
